Late Morning 4/24 I

Walked to FCP church for

description - saw SEAVE guard

including the beer-slurping soldier

for the last time. stopped off at

a DR bookstore + books

2 history, Minister booklet + script.

Dropped stuff off at Arturo + Adriana's

& left (photos of Cruz Parlane sin)

& a great bathroom mural (outdoor)

of Mica stuff at restaurant >

in town N. Super Bikes Mark

of Chongchuk-

Young proprietor knew I was

from San Juan but didn't

know anyone in particular -

he knew because of car -

He had a vague notion of

earthquake - but was blind when

I asked him about Cerro Negro

I picked up a hitchhiker - a

young Mexican guy at Crucero

to Coban. He also knew

about E-dy - but nothing

happened in FLP when he was

& he wasn't too into talking.

I went to Punta Laguna

Some boys & a young Mayan man

were hanging out in Belize at

entrance. They didn't know

about E-dy & recommended

I talk to Sr. Siripia when he

returned.

I looked for Willem in

Tulum Pueblo but he was

not home.

→ ~~The next~~ Tree at Ranch

is in flower - far less no

fruit

600-8:00 looked for Migrants

around PM - saw 2 ♂ RT hummers

by Hotel Eden, 1 at Villarta Rd

1 Bl + W at Botanical gardens

a Gray kingbird at Villarta Rd

A Black kingbird on Rd

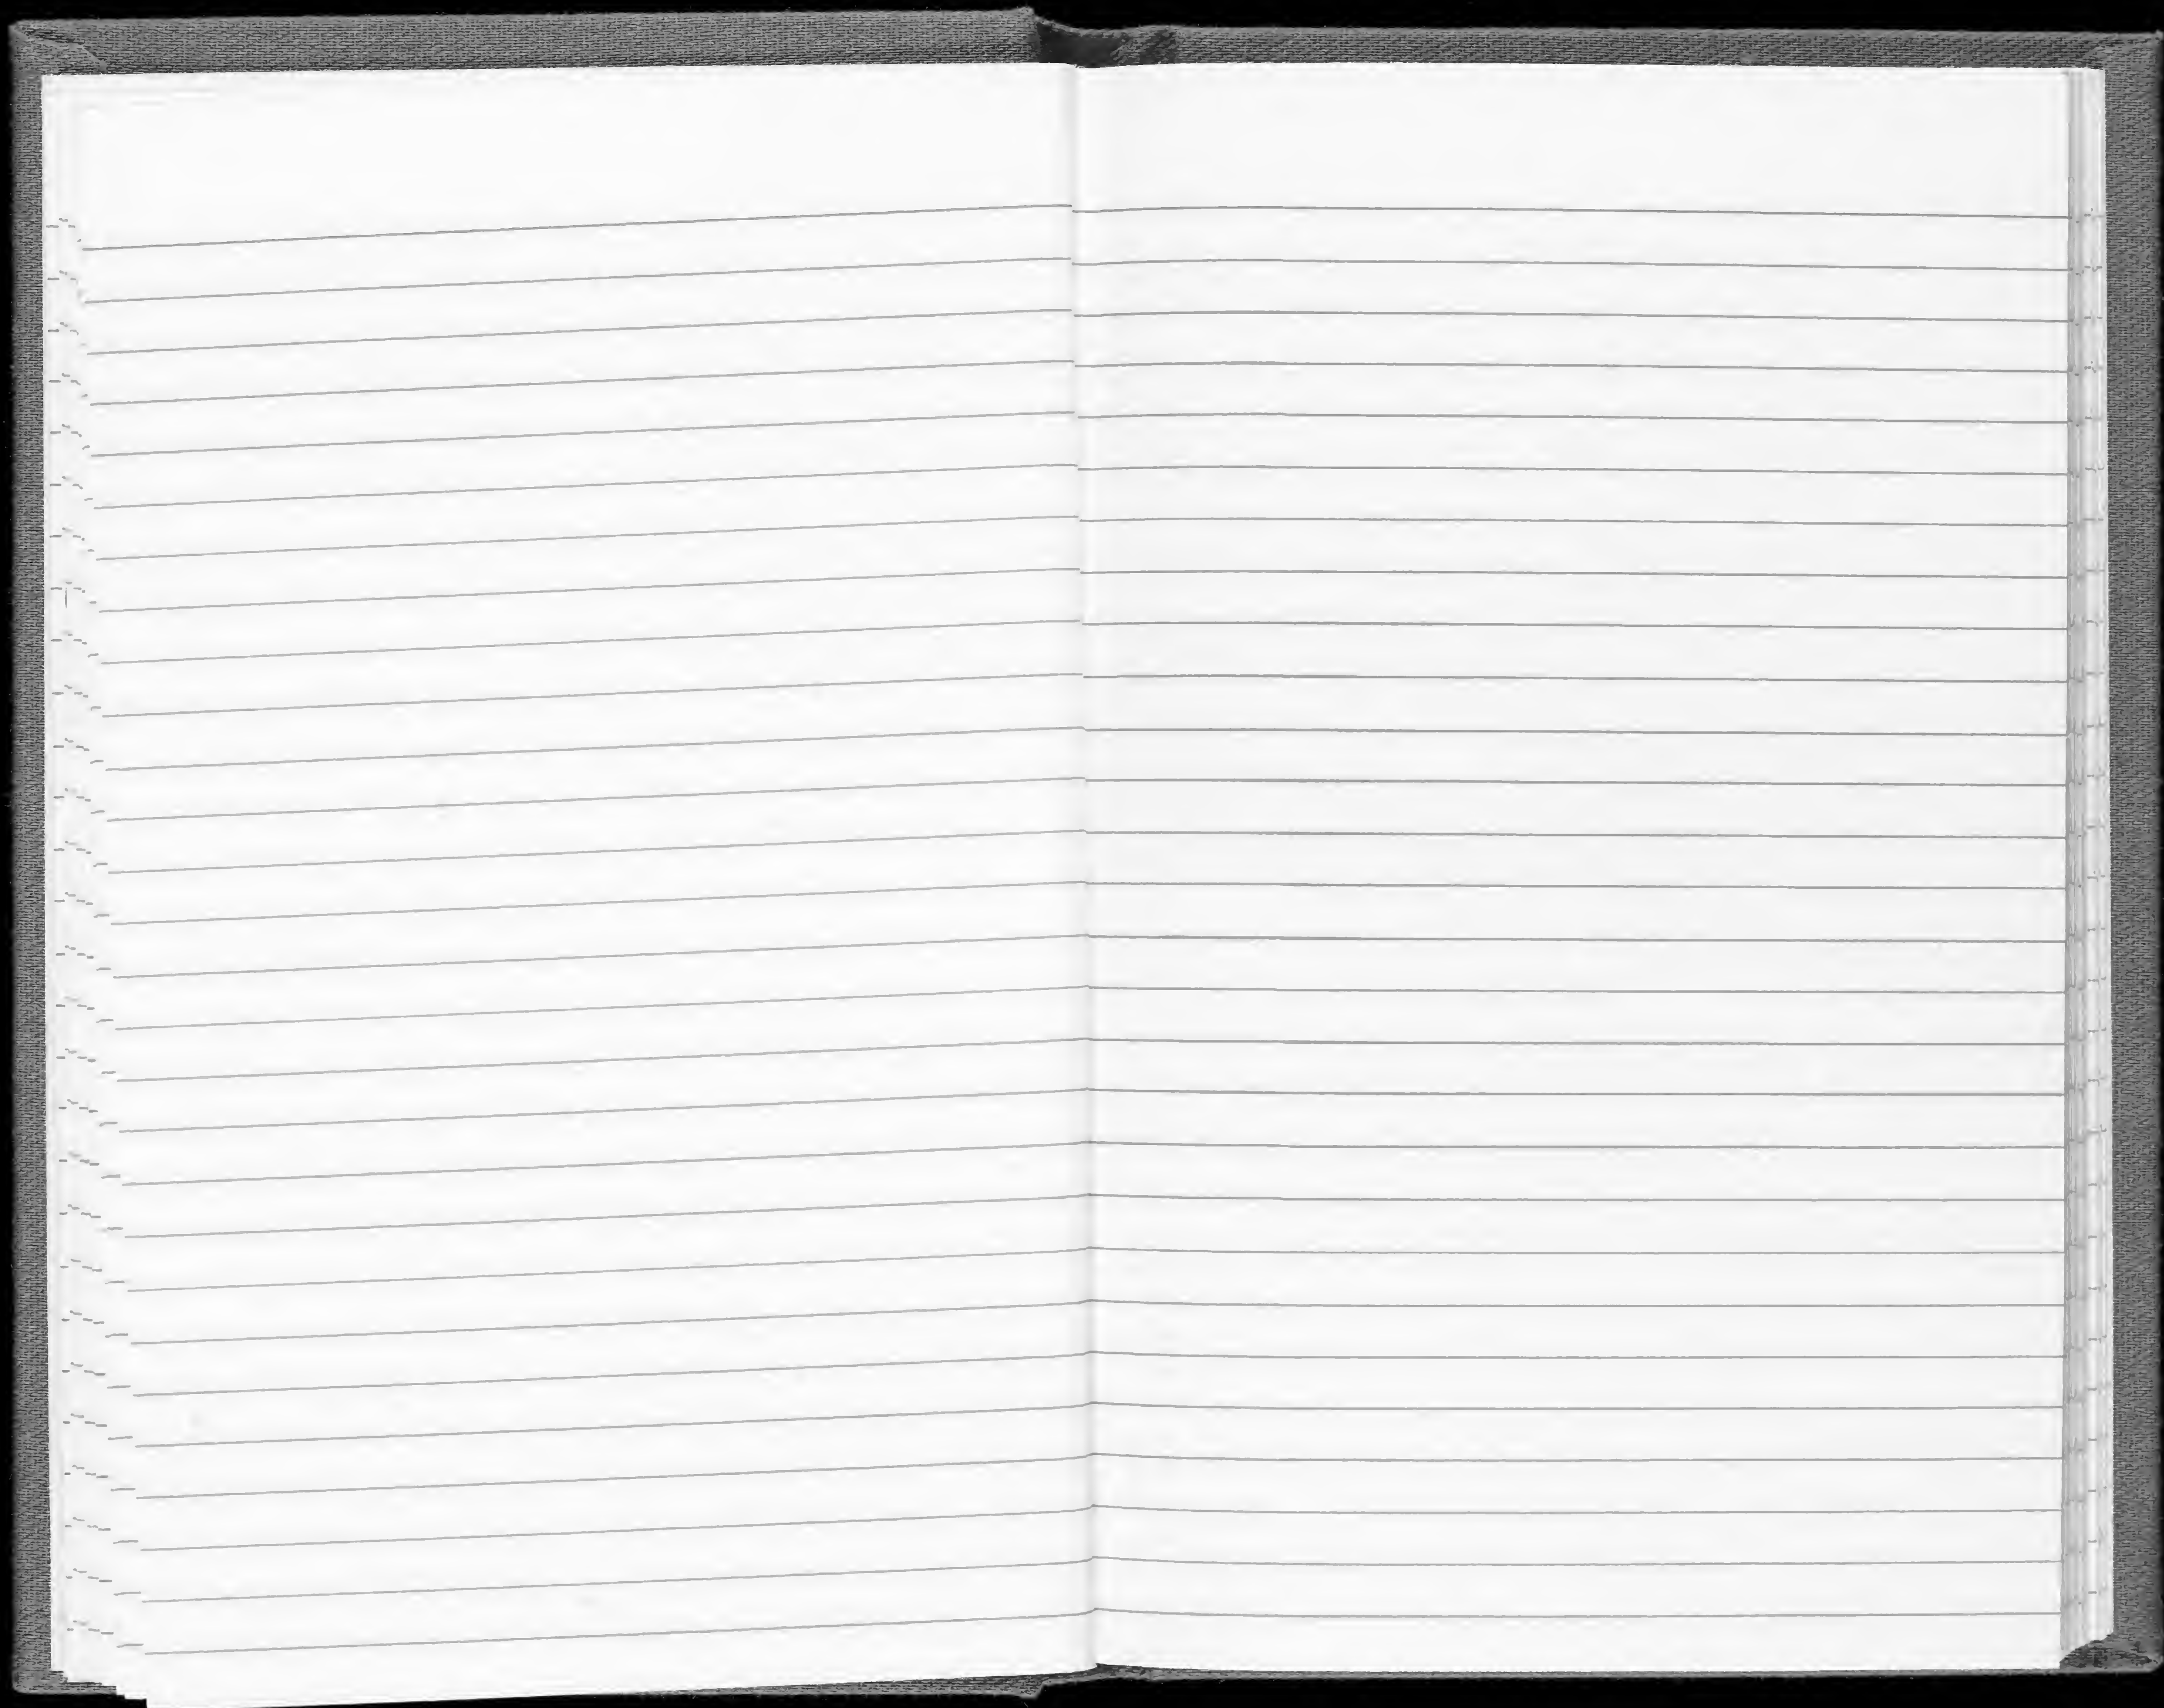

to UNAM station. H1 7-2

M. warblers - Saw 5 Yellow (mostly)

That's about it! Lunched then

at Botanical gardens Myrcianthes

Talisia

1. Trip down — halting traffic
Throgs at Green airport
sign for Xerox ~~Hotel~~ Hotel,
etc

broken down Volkswagen
with Mexican bird design

2. Colorful stand — crowded
while finally seeing — steady look
at a popular game where
pinkish ~~birds~~ ~~birds~~ fly to sell
wired items like superlatives
brown questions, a choice of
like on concentration

Pink chicken, ran out of song
you can enter product as sold by

his run round bird, said to
be changed.

I spent entirely with the
Cumbi Limbo trees of Simbion.

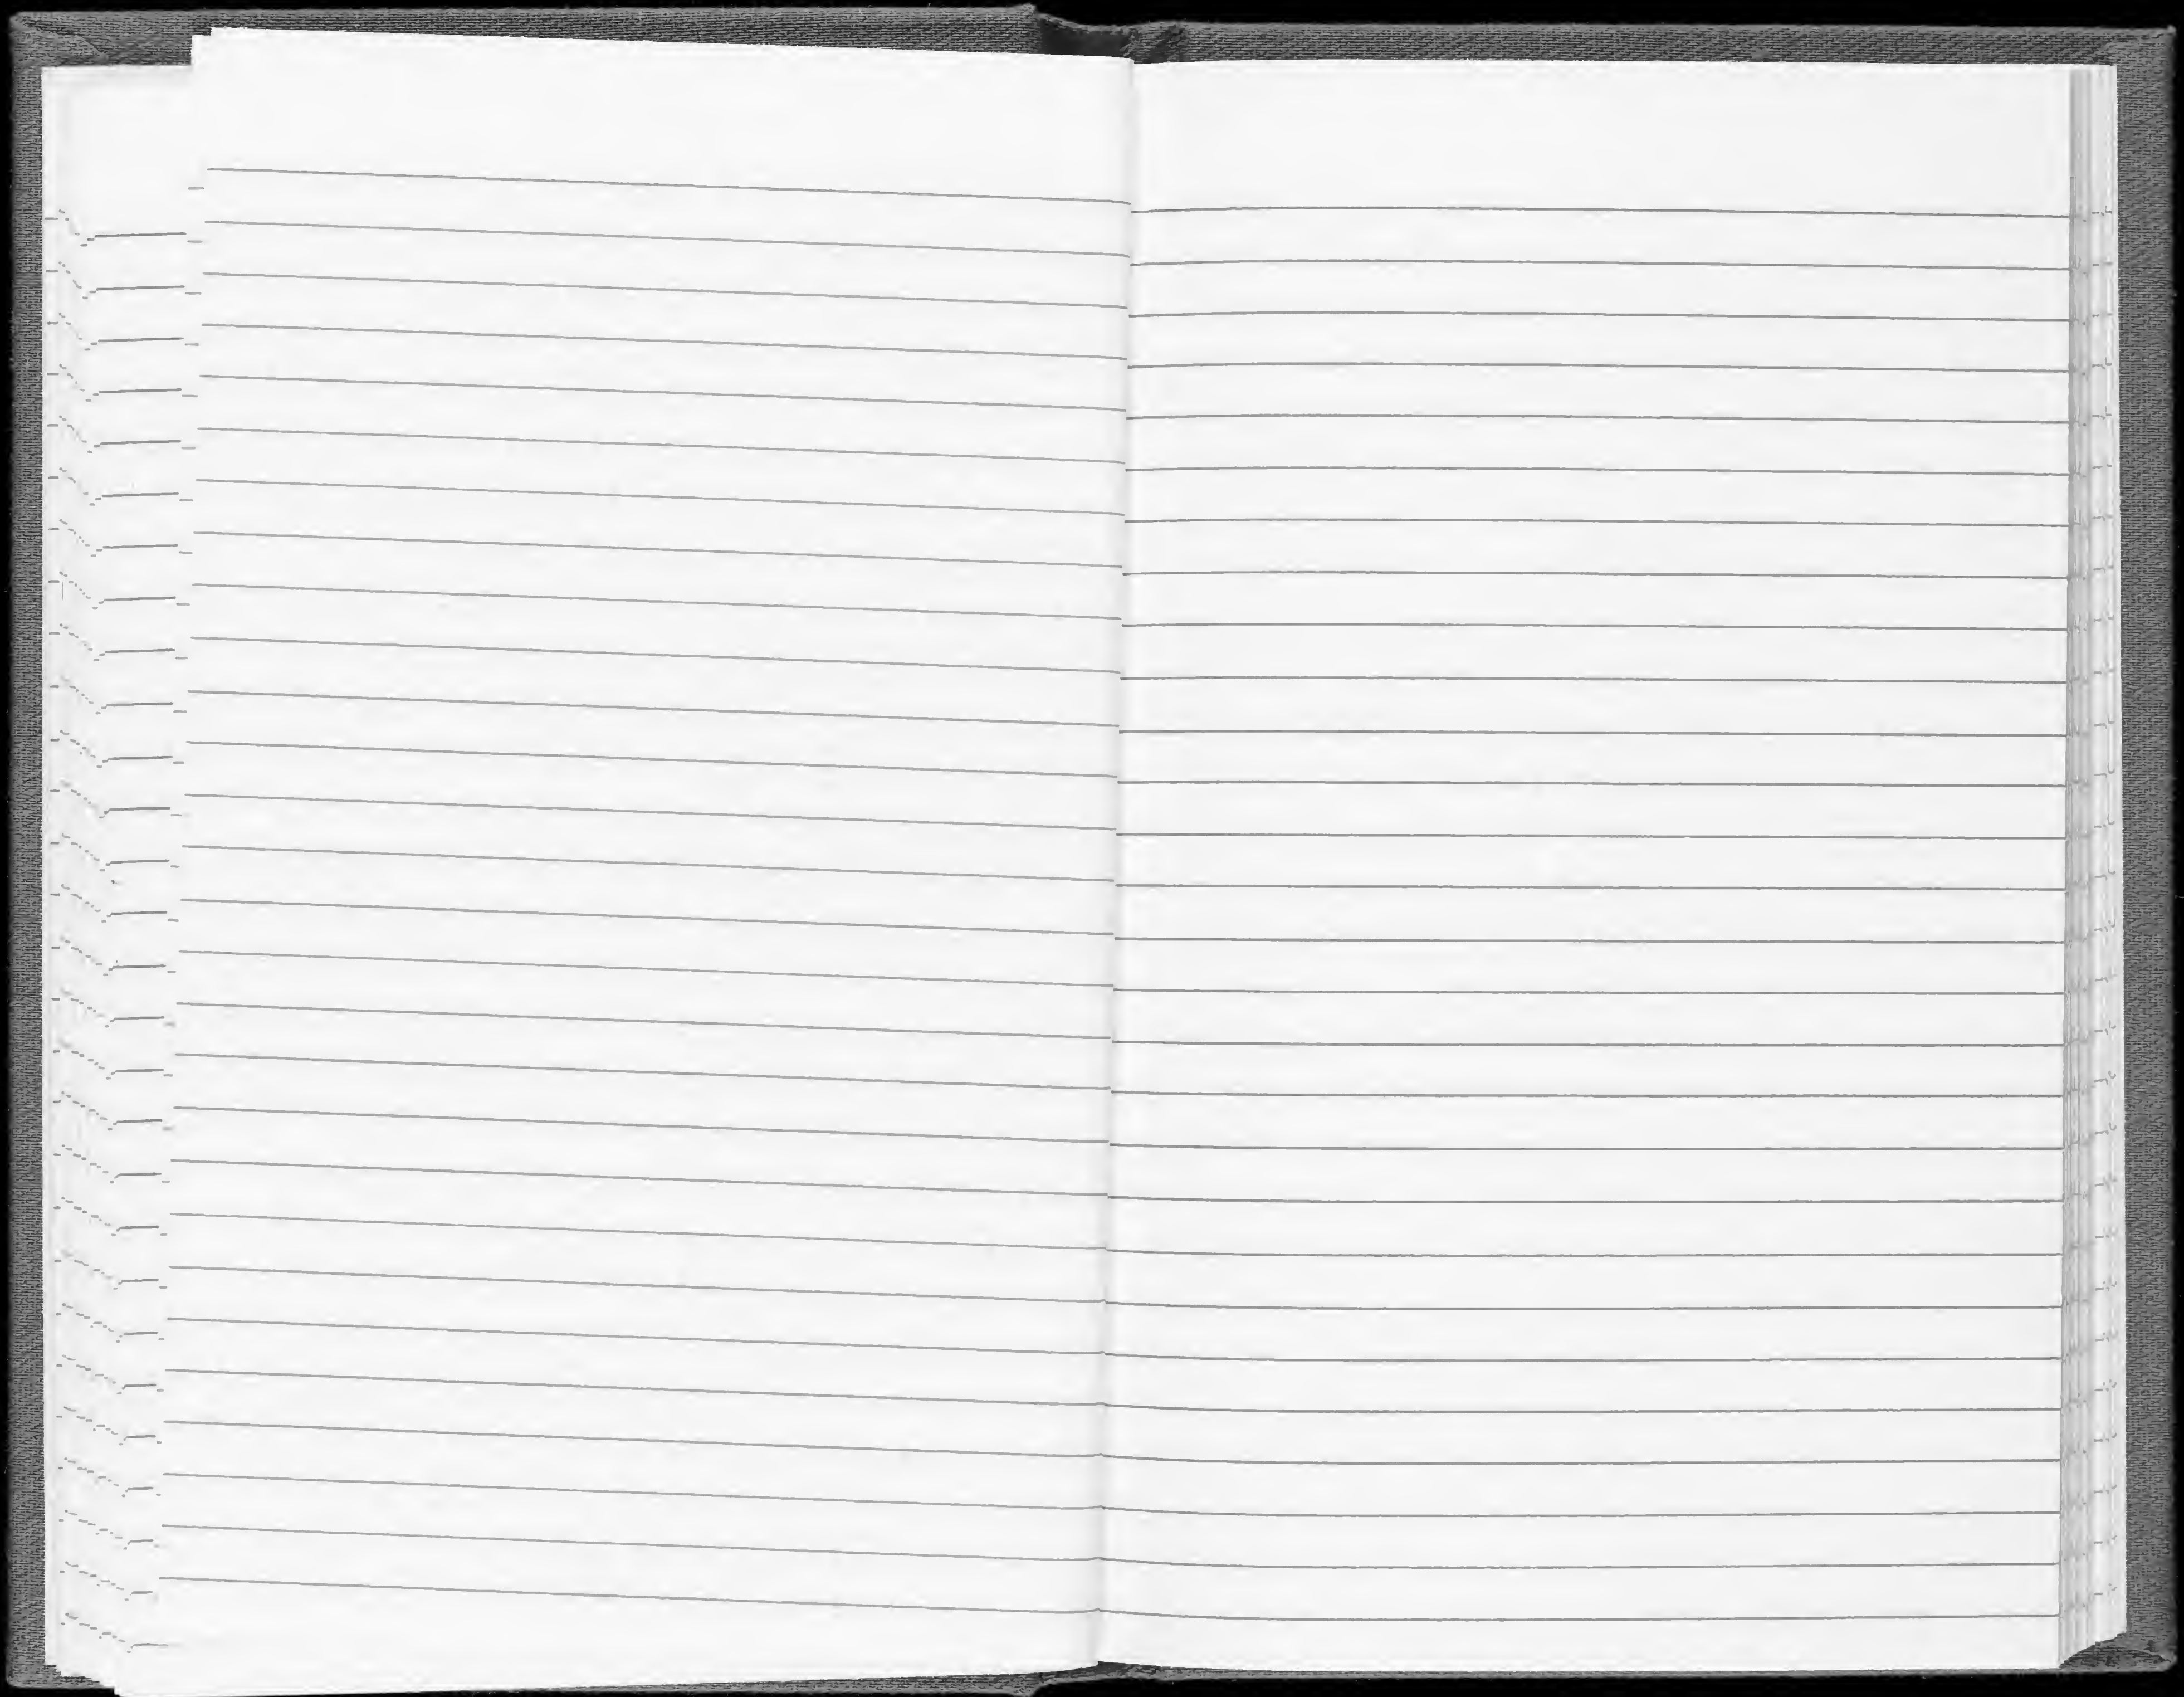

^{S.T.}
Myrtle has had fruit / low income
don't to explain the - small
extension regime.

Yucca, starts out (L.H. - 1000)
thinning (C. bbea) but on
Mexico ^{with Miller's} ~~weaving~~ but long
the border skyward.

Thy:
~~Mary B.~~ It like open is
good, the rock day should be
great.

The Earth is a
self-renewing process. It is
bitter to balance

Economic well-being + ecology
balance - then it is a
the has been fight for
balance in Quito Roo

Talked to people at local
store - had heard at Girl Day
(celebration) no group is organized
to do anything.

Went to 24hr Restaurant -

Saw a picture of Darius -

Knew about it - didn't know

got it because it celebrated

bugger - why 20 years?

Small "punk" in 200

Hotels - to present - 2

new books

Publ. y for work

Environment by

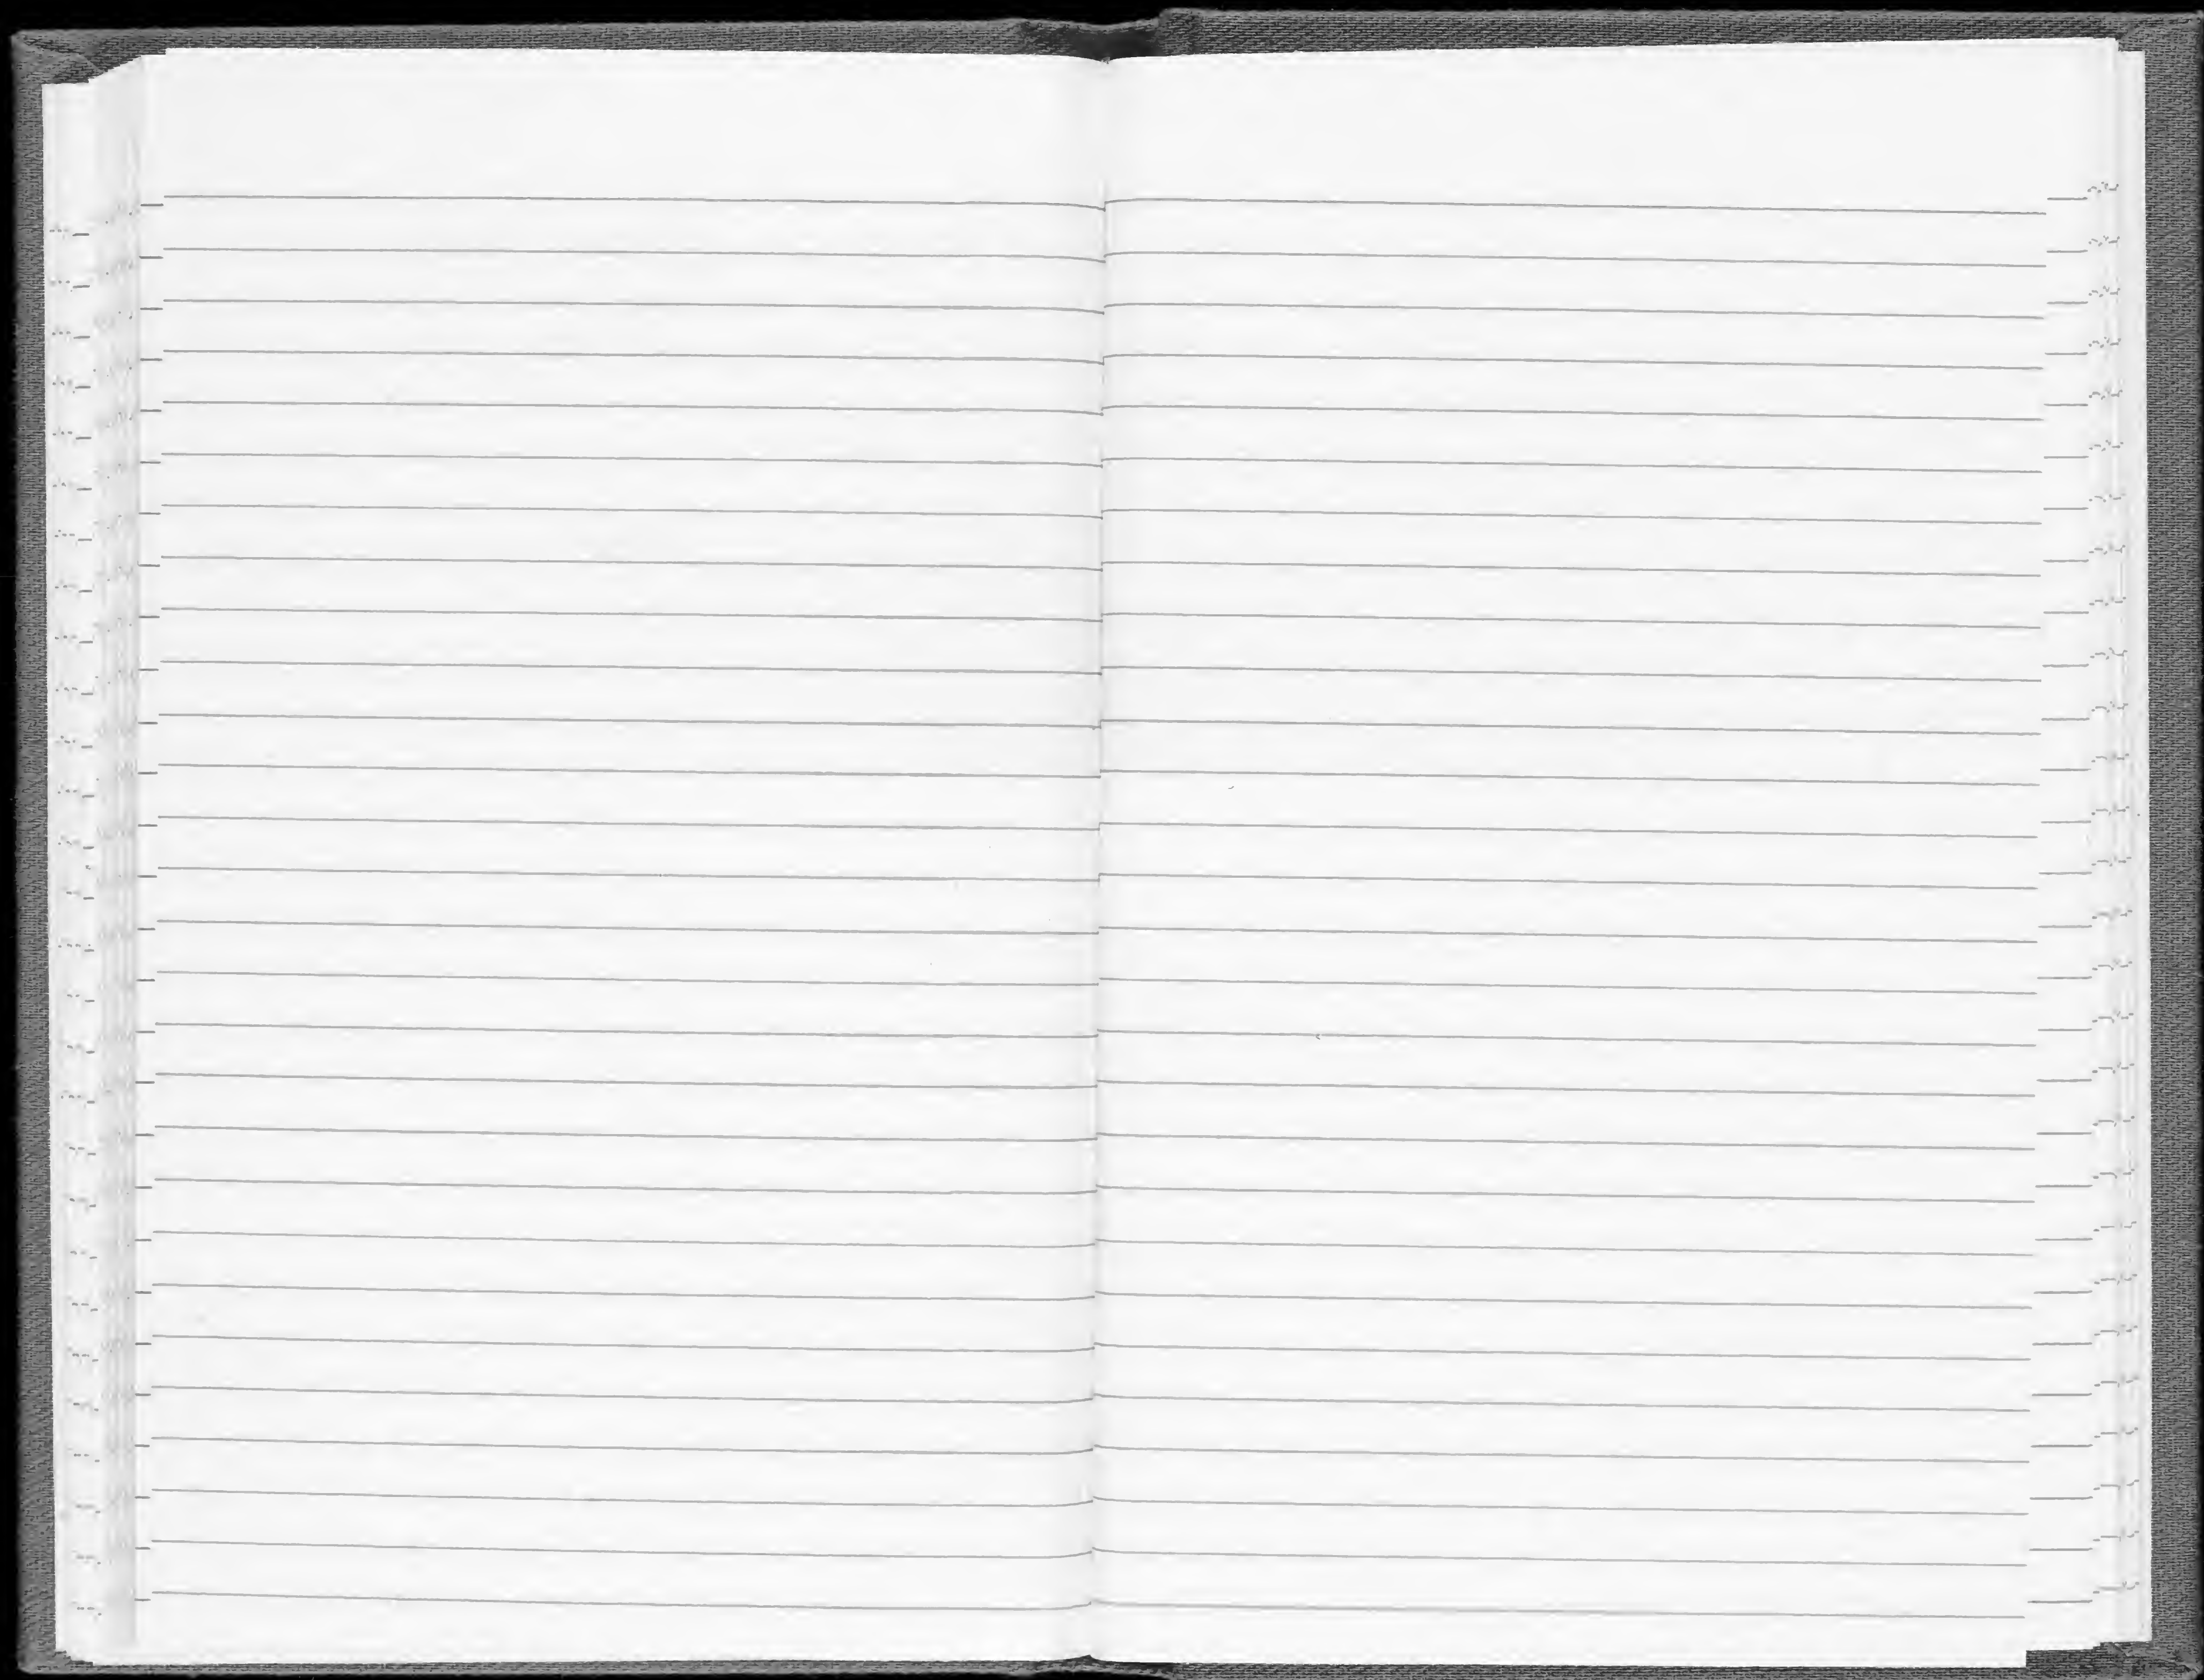

10 - 12 - festival at

Chungale

12-1 book to be

2nd 33 Nap

3 30-31T ~~Q&A~~ hours

Migratory Bird Facts

I An estimated 3 billion
Birds migrate from Eastern U.S. &
Canada to the Tropics

II Most of these birds live
outside of urban & suburban areas

III 60-80% of eastern forests
being lost migrate to the tropics

IV 40-50% of the birds
was (lost) at Yucatan Peninsula,
West Indies or migrants from
N. America

V ~~At~~ Many birds east migrate
in N. America from the young
primarily in captivity.

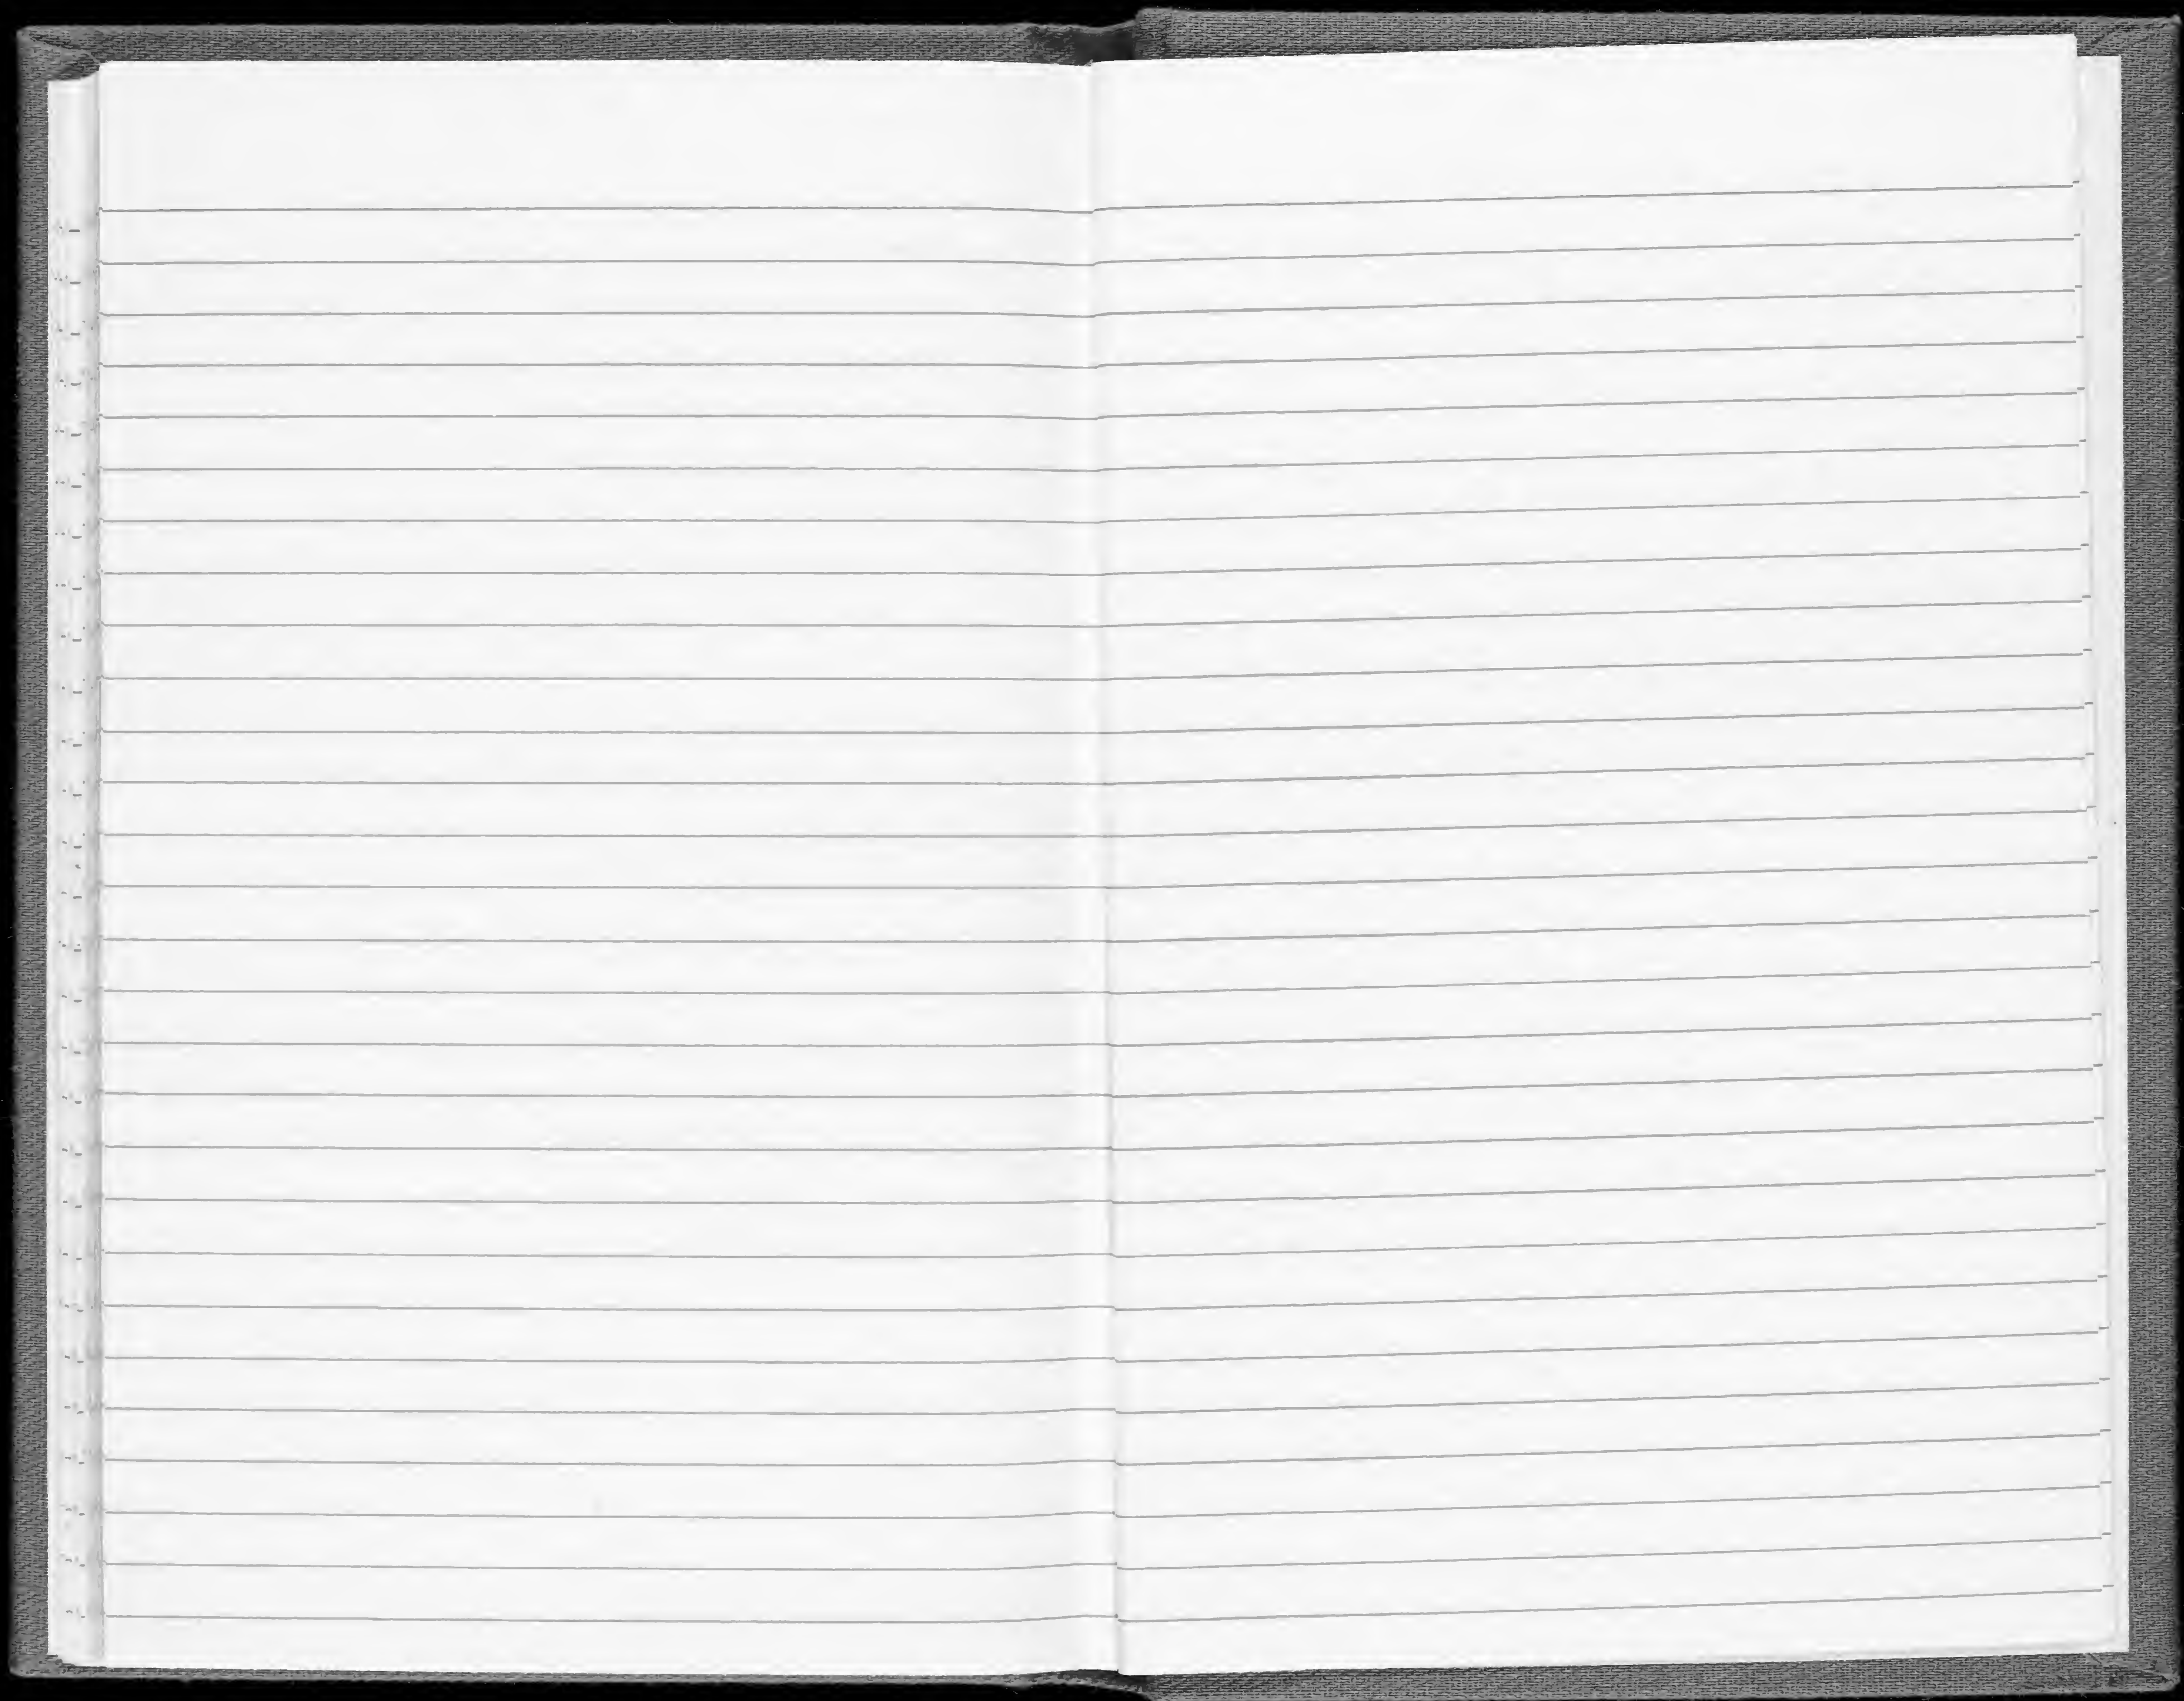

VI up to 40% of the stay camp
of captivity is moved by birds -
mostly migrants.

VII Migrants, Birds have declined 1-2% (year)
over the past decade or so due to
Breed Bird Survey, ~~Decline~~

VIII Many Birds have declined up to 10%.

IX is signs of worldwide forest
(such as R.C. Park)

Many or Many Birds are in
with Mexico

Need to be done

1. Spanish translation

2. Logo

3. Summary letter
